Neustift, Austria: 13.09.2019

Soest, Germany: 13.09.2019

Dear Customers, Colleagues and Friends:

The decision has been made that at the end of 2019 our companies in both Austria and Germany will suspend business. This has not been a fast or easy decision, but one that Walter and I have spent many months discussing. Walter and I both have the good luck of remaining alive, which means we are not getting younger. Therefore, it is time to slow down just a little bit.

It is important that I give you information as to how this will be accomplished:

- We are not selling our companies but simply closing our doors to future business
 - Assuming responsibility for our products will be WERO GmbH & Co. KG in Taunusstein, Germany. WERO also has a company located in Austria, WERO GmbH & Co. KG Salzburg.
 - WERO has been an extremely valuable partner since 2008, at a time when only a few customers and no other company appreciated the need for our products.
 - We will be doing a gradual product turnover and there will be times we will not give you an offer or fulfill your order request, but we will refer you to WERO. The official start date of this will be 01.11.2019.
 - Walter and I will be assisting WERO for the next 2 years to assure the transition is completed as smoothly as possible
- Our websites – medicalsci.com, medicalscg.de and medicalsca.at will remain online
- Walter and I will both be reachable via our e-mail and mobile phones until what may possibly be infinity!!!

It has been our greatest pleasure getting to know each of you over these past years. We hope we have assisted in helping you make a difference in your patient care.

Of course this is not really goodbye. You will continue to see us at some meetings and wherever we believe we can offer a little benefit.

Best regards,

A handwritten signature in purple ink, appearing to read 'Doris McGirt'.
